### Notes:

The above sprinklers come with a zinc guard and shield already attached to a bronze sprinkler. This eliminates the need for field attachment!

Sprinkler guards are listed and approved only for use with specific sprinklers. The use of any other guards on these sprinklers may impede their operation or distribution and negate all approvals and warranties.

### Notes:

The above sprinklers come with a zinc guard and shield already attached to a bronze sprinkler. This eliminates the need for field attachment!

Sprinkler guards are listed and approved only for use with specific sprinklers. The use of any other guards on these sprinklers may impede their operation or distribution and negate all approvals and warranties.

**Notes:**

• **Standard Packaging**

Standard packaging consists of 500 ft. (152m) coils and spools ranging in length from 2300 ft. (710m) to 3280 ft. (1000m) depending upon model ordered. In general, smaller lengths of 500 ft. or less will be on coils, and longer lengths on spools. The exact length of wire per spool used to complete each order is at the sole discretion of the factory. The policy is to send as few spools / coils as possible based upon stock availability.

• **Custom Lengths**

Custom cut single piece coils in lengths up to 1000 ft. (305m) or spools up to 3280 ft. (1000m) can be provided. Limitations may apply depending upon specific model ordered.

• **Messenger Wire Models**

Messenger wire reduces the maximum length of Protectowire that can be accommodated on a standard spool. Types EPC-M, EPR-M and XLT-M are limited to 2500 ft (762m) per spool. Types EPN-M and TRI-M are limited to 2300 ft. (701m) per spool.
